Here is an example of how the Mars 360 system would work for the Mars-1 demographic. Here is a sample of charts below, all of which would be classified as Mars-1. First notice the layout of the seals and apply that to the charts below.

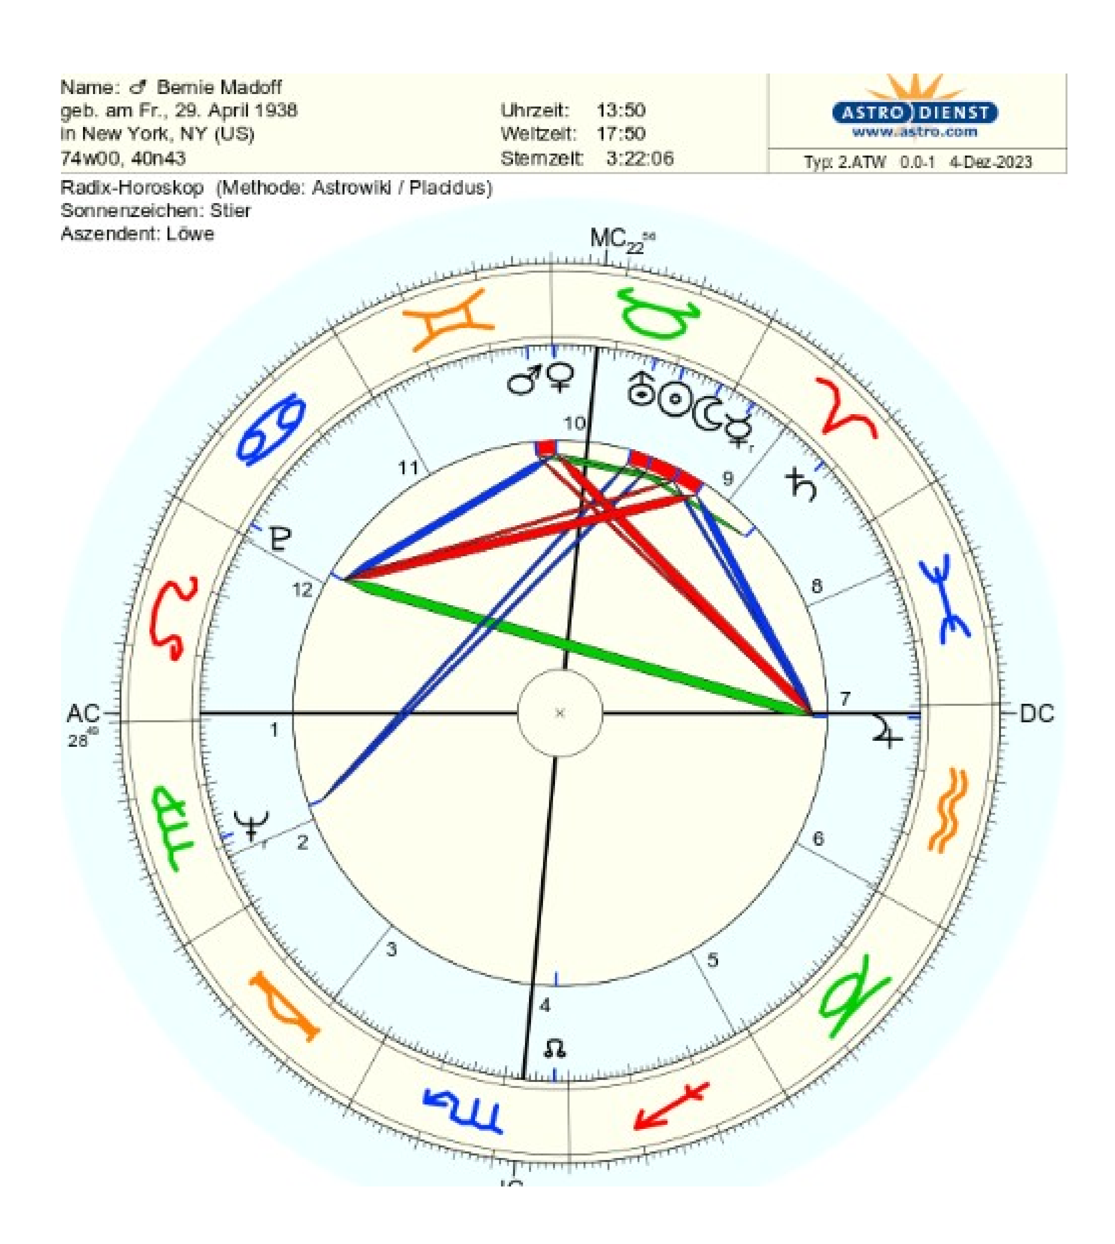

Notice where the 1st seal is located. The 1st seal is designated as causing a person to lack the energy to concern himself with normal standards of face to face communication and other people's money. This person is often blunt and triggers people when communicating directly. These types do not like small talk, but are often ranked high in law enforcement and business. These types are usualy pro-war and verbally abusive, but good as business. These types also lack control over the right hand. They also don't get along with collegues and associates.

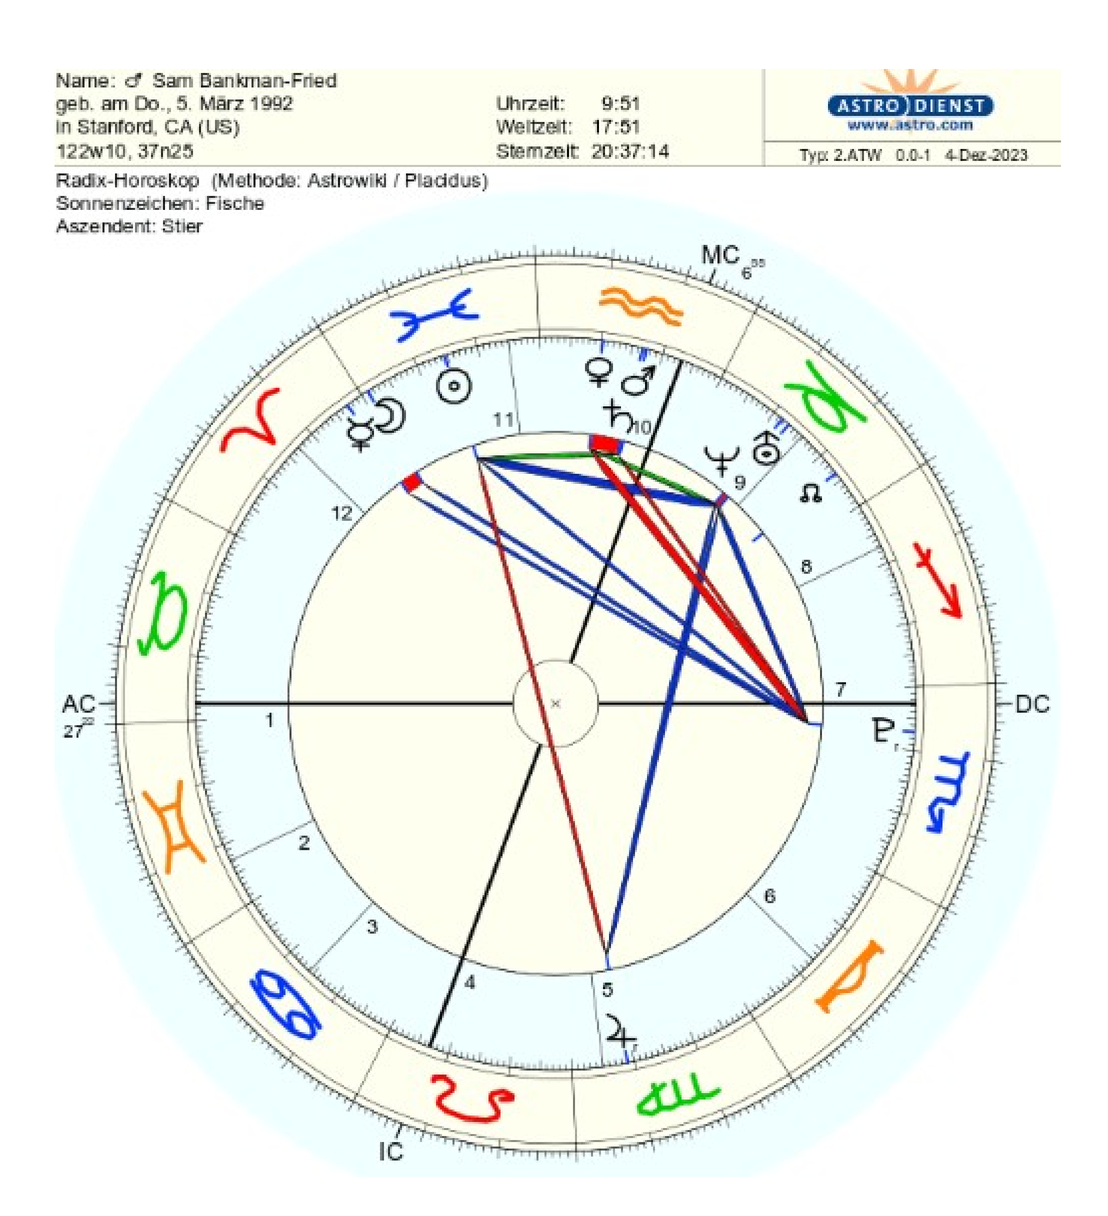

This archetype lacks the energy to concern himself with matters concerning other people's money and proper face to face comunication. The result is that this archetype becomes the most self-centered and corrupt. These types do not do well having to communicate face to face. However, their blunt direct style is can be a virtue in law enforcement, military and business. One of the worst expresions of this archetype came in the form Bernie Madoff. Yet this archetype is one of the major components of the Mars360 system, because their open designation as a Mars-1 could allow for society to accommodate their blunt verbally abusive manner. This means that if you see a Mars-1 walking down the street, he may have some liberty to use foul language in most scenarios, with legal protection. If you have a boss that is a Mars-1, you will know what to expect in terms of communication. These types also use racial slurs often to someone's face. A black, chinese, european, arab, or jewish Mars-1 will be likely to directly call another person a derogatory racial term. However, under the Mars 360 system, this would be understood as a result of Mars influence on the individual and not as a subset of racial animosity from another demographic. Very important. Under Mars 360, the Mars-1, along with his inclinations, will be protected. The people who represent this archetype are Bernie Madoff, Kevin Hart, Bill Gates, Snoop Dogg, Dr. Dre, Sam Bankman Fried, Ken Lay, George Patton, Mitt Romney, and Muhammad Ali
